MEDITATION GEAR

Meditation aids to relieve stress, anxiety, depression and countless more benefits that can't be counted on the fingertips. Mediation props help improve posture and release tension often experienced while sitting on the floor. Thanks to the guidance received from the traditional Buddhist monks along with our own textile experience spanning over 26 years, we could create exceptional quality cushions and mats to make meditating for a longer period of time not only manageable, but truly comfortable.

YOGA EQUIPMENT

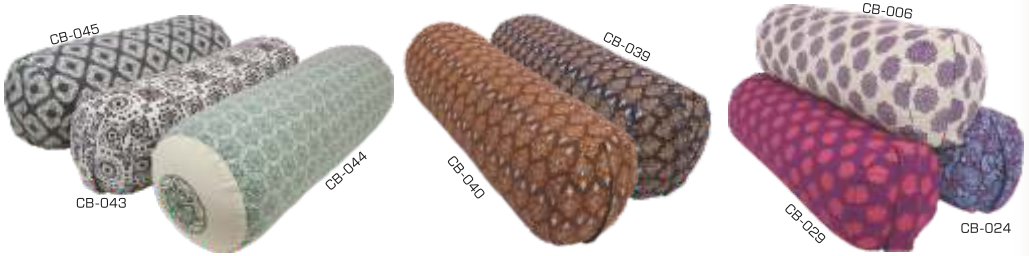

Yoga is an ancient Indian practice that brings together mind and body. The ancient yogis used logs of wood, stones and ropes to help them practice yoga exercises (asanas) effectively. Use of props makes the asanas more accessible to all practitioners, irrespective of their flexibility, age, strength or training level. Props allow muscular extension to take place while the brain remains passive. We have made sure our products are of supreme quality starting from sourcing to fabrication ensuring you can practice yoga without worrying!

SOUND HEALING

Originating in the Himalayas over 2000 years ago, singing bowls are used worldwide for meditation, music and relaxation. Each singing bowl comes with a wooden striker that generates a healing vibration and enlightens the chakras during meditation. Tibetan tingsha are small cymbals used in prayer and rituals by Tibetan Buddhist practitioners.

MAGNETIC THERAPY AIDS

Magnetic therapy is an alternative healing practice using Static - unmoving-magnets to ease pain and inflammation. Magnets improve blood circulation allowing blood vessels to dilate and bring better blood flow to the affected areas of our body. Better blood flow helps to bring in the natural healing and to remove the toxic by-products of inflammation. Thus, pain and inflammation are diminished.

Magnetic fields can reduce the transmission of painful sensations from nerve endings to the central nervous system.
